NO INDICATION YET OF NED OF ARMED SERV-ICÉS - GOVERNMENT EMPOWERED TO SE-CURE SUPPLIES OF FOOD AND FUEL AND REGULATE THEIR DISTRIBUTION.

London, May 1.—A general strike in support of the coal miner has been declared for next Yutrday. The declaim was reached by the Tradet Union Conference the vital services including the transport workers. If no settlement of miner dispute is reached before Tuesday.

London, May 1.—The Government today proclaimed that "Astate of emergency exists" in consequence of the coal

It thus assumed the power granted by the Throne employ troops or take any other measures necessary to main ain order and insure the welfare of the population.

Great Britain is placed under what approaches a state of seige by the proclamation that a "State of Emergency"

of seige, it gives the Government almost unlimited power. The only limitation prescribed in the law under which the proclamation is issued, is that the Government cannot declare

industrial concription or compulsory military service. And apart from this limitation, it may institute any measures it desires for the preservation of pace, the securing and regulation of supplies of food, fuel, light and other necessities and the maintenance of means of transport.

HERE'S CAUSE OF "EMERGENCY"

HERE'S CAUSE OF "EMERCENCY"
The position of dispute is briefly this:
A Governmental subsidy was granted last July to assist the coal industry which was said to be losing money. This subsidy, used to maintain the scale of wages, expired at mid-

Pending reorganization of the industry along the lines recently recommended by an expert Commission appointed by the Government, the owners were faced with the necessity, by the Government, the owners were faced with the necessity of running mines on their own resources. They offered the miners the uniform national minimum wage, 20 percent high-er than that obtaining in 1914, but resenting a reduction of thirteen and one-third percent in the present wages. The owners also insisted upon an eighthour day, instead of seven owners also insisted upon an eight-hour day, instead of seven The miners refused to accept either the wage reduction or the lengthening of hours. It was announced at the conference that the Trades Unions would offer to maintain, by voluntary, arrangement, distribution of essential foodstuffs.

ROTH "SIDES" ARE READY

It is asserted in some quarters that the miners lack sufficient money to meet the requirements of a prolonged strike, their funds having been depleted by unemployment pay to mem mers of the Union for months past. The Trades Union Coness with which 203 Unions with a membership of some five will black to Amount and a memoranip of some new millions are affiliated, commands immense resources. The wealthiest Union is the National Union of Rallwaymen which, under the administration of J. H. Thomas, has accumulated several milon pounds. Gas, electre and other utility services have been storing coal for some time and it is claimed they

have been storing coal for some time and it is claimed to have a supply to meet their demand for several months. Leaders, flay in-The General Farthers, Rocks and Mallowy and the state of the state of

NOW Is The Time to Have Your Winter Coat Cleaned -Before Putting It Away

We have received many inquiries lately as to whether it is better to have the winter coat cleaned before storing it for the summer, or to wait until it is taken out in the fail.

Most decidedly, now is the time to have it cleaned Moths thrive in dirt—but if the garment is cleaned now—they won't have the same chance during the summer to do it damage.

"Modern" Cleaning methods assist in prote the coat from the ravages of moths, and in the run may help to save you money.

BELL LANGUAGE

We all lows as childran the rhyme of St. Clements, in which the London city beneckes are assumentful. It is curious as piring terprenden to what people thought the bill said, as if firing things, takine of bell language. We find such at Northampton: "You owe me a shilling. When will you pay last? When will you pay last?

That will never be. Say the Bells of Coventry.

Say the Bells of Coventry.

Oh, yes, it will,

Says Northampton Great Bell.

BETTER THINGS Better to smell the violet cool Than sip the glowing wine; Better to hark a hidden brook Than watch a diamond shine,

Better sit at a master's feet Than thrill a listening state;

Better asspect that those are proof.
Than be sure that those are great.
Better to walk the realm unseen
Than watch the bour's event;
Deliver the "Watt dones" at the last

A DEMONSTRATION of Chevrolet will delight and surprise you. It will bring you a new idea of four-cylinder power and smoothness. It will make the new LOWER Chevrolet prices appear all the more remarkable.

Drive the new Chevrolet and you will under-stand the reason why thousands of satisfied Chevrolet owners wrote unqualified expressions of appreciation during the year 1925.
You will understand, too, why Chevrolet popularity is growing in an amazing manner

Let Your Taxes be Spent on Mileage instead of on Upkeep

Have you ever stopped to figure what propor-tion of each year's paving appropriation is spent to maintain non-permanent pavements? And do you realize that every dollar thus spent for upkeep means that much less mileage of new paving each year?

Concrete pavements are permanent. They need no costly upkeep. They staunchly withstand the heaviest traffic and provide a smooth, safe, comfortable driving surface for every type of vehicle.

The more a community adds to its mileage of concrete pavements, the less it needs to spend each year for tupkeep. Each ensuing year's appropriation becomes increasingly an appropriation for NEW ROADS which, built with concrete, save money for the taxpayer and re-

duce the cost of motoring. Canada Cernent Company Limited

London, May 3 .- Great Britain is faced at midnight to-

Donon. May 3.—Great Statain is faced at midnight to-night by the gravest domestic menace which has overhung the Nation since the fall of the Stuart dynasty.

This is a general strike which it is estimated will call out immediately some 1,405,000 men to join the 1,120,000 coal. miners already on strike.

miners already on strike. At midnight the general strike is to be-begun with a ty-ing-up; of all transport services except those dealing with feed stuffs and several other industries. While it seems apparent that some of the trades unions will not immediately join the wallout, it is understood that about 41,000 or naiwaymen, 30,wassous, it is understood that about 410,000 yallwaymen, 80-000 railway clerks, 300,000 builders, 330,000 transport work-ers 60,000 eaumen, 120,000 printers, 100,000 from workers and 25,000 electricans will cease work. As far as can be learned at present postal and telegraphic workers will continue at their jobs.

COUNTRY DIVIDED INTO TEN

To meet the emergency the Government has made what the public is informed are elaborate preparations. The Country is divided into districts, each under a civil com er with large staffs of officials. These in the name of the Government will assume complete control of public necessities.

It apparently follows that the trade union proposals to run food trains and transport, other necessities will not be consid-

RENEW WAR-TIME RESTRICTIONS

A system of rationing similar to that of war time will be established especially as regards fuel and light. Persons who established especially as regards ruel and ugin. Persons who have five hundred weight of coal in their cellars will not be allowed more, until their present supply is exhausted. Then they will be permitted to have only one hundred weight weekly—Their gas and electric supplies also will be curtailed, foodstuffs probably will be rationed and the public, to some extent wil renew their acquaintance with restrictions they were und-

London, May 3 .- The first test of strength of the Government in handling the nation-wide strike to begin at midnight tonight, came in the House of Commons this afternoon when Premier Baldwin's motion to thank the King for issuing a proclamation declaring that a state of emergency existed, was car

ried by a vote of 308 to 108.

Labor's challenge of the Premier's motion was attended by

taunts hurled from one side of the House to the other.

Following the vote the Premier addressed the House and declared that a continuance of the coal subsidy was out of the question. Miners and owners, he said, would have to find, or have found for them, some way of managing their own busi-

, independently of the Governmental intervention.

NEARER TO CIVIL WAR

Premier Baldwin today told the House that as a result of the order for a general strike at midnight tonight, the Govern men finds itself challenged by an alternative Government. The Premier declared that the labor leaders ordering the strike were threatening the basis of orderly Government and were nearer to proclaiming a civil war than Great Britain had been nearer to proclaiming a civil was than Oreat Britain had been conturned. INDIA DOCKS

London, May 4 .- Great Britain today lelt the grip of labor's might. At midnight millions of workers under aegis of the Trades Union Congress quit their labors in the struggle to enforce the coal miners' stand against lower wages and increased hours.

By noon streets of the capital were a maelst

ling pedestrians and crawling motor vehicles with unaffected workers striving to get to their places of business while in some places radical strike sympathizers sought to turn them

Large crowds had gathered about the Parliament house and in Whitehall where they whiled away their time singing the "Reg Flag".

Big Ben boomed out 12...
A man clinging to the railing of the House of Parliament yelled hoarsely "Comrades, the hour has struck"...
Then the great mass of people began to swerve and eddy into a procession which started towards the West End.

Near the Treasury, police seized a red flag and there was a brief unsuccessful struggle to recapture it. Then march ers passed through Trafalgar Square to Regent Street and Picadilly to Hyde Park corner. Finding the great park clos-

ed they continued through quiet back streets.

Suddenly in Eaton Square a police escort by scattered the marchers. Some of the men fell in their flight; others were chased by bodies and then the demonstration

while the Bis-up of trains continued inrougnous use way, and many expressed apprehension as to the outcome of the great struggles, efforts were continuing toward a settlement. VESSEL SERVICE CURFEW FOR CANINES IN QUINTE BAY

It will be gratifying news to the people of Belleville and to all others along the Bay of Quinte to learn that Canada Steamabip nasigned to the newly restored Rochester-Bay of Quints service will pass up and down the Bay instead of only in one direction as previously announced.

This pleasing information was contained in a letter from Mr. C. C. Bonter, assistant passenger traffic manager to the Chamber of Commerce here.

Alderman Erdie Marks of Oth-awa gave notice of motion as the leat Council meeting that at the naxt season of the Council ha will present a bylaw probabiting dops running at large after nine o'clock at sight.

Premier Baldwin has announced that the government will come a committee of public safety, with the cabinet retaining sole authority.

London, May 5 .- Both sides held firm today in the great British general strike. Contending forces and the general public as well, settled down for what it seemed might be a public as well, settled down for what it seemed migst be a long, hard war. Gang attacks on trams and busses run by volunteer workers in Glasgow, Leeds and other provincial centres were the only sensational developments of the day.

WARSHIPS AT CLYDESIDE That the government is prepared for any emergency along Clydeside is indicated by the news that three large warships are in the river. The giant battle cruiser Hood joined the warships and the cruiser Comus moved up river to Glas-gow. In the main the country was quiet and the situation

afforded by activities of volunteer workers.

NO JOINT CONFERENCES Both government and labor officials continued to work little changed except for the increased transportation facilities intensively on their respective problems but hopes that they might resume negotiations did not materialize. Both sides issued statements claiming to hold the advantage.

AT NOON TODAY IN LONDON AT HOON TODAY IN LONDON.

London, May 5—At mid-day transportation was comiderably easier throughout the country, owing to the activities
of volunteer workers, but apart from this there was little
change in the general strike position. Restricted railway,
tram, and bus services were remining in most parts of the country and officials predicted a fuller service shortly. Business
as a whole was more stagnant than yesterday, many froms
practically closing down. Food supplies were good; There
were several reports of minor disorders simed at jointness
services, but nobody was reported hurt.

FEWER CLERKS GO TO WORK

The second day of the strike saw a remarkable failing The second day of the strike saw a remarkacie ranning off in the crowds bound for London from all parts of the suburban area. Progress on the main roads to the city was easier than yesterday and there were fewer traffic jams at vital
spots. The reason for this was that thousands of people were
informed by their employers, yesterday that they need not report for duty as little business can be proceeded with at pre-

TRAINS ARE RESUMED

Volunteer services appeared to, be working quite well and the Metropolitan Railway Company announced a twenty-minute train service between certain busy centres. The Western Railway Line announced an hourly service in and out of London touching at most of the big towns enroute to Plymouth and other provincial centres. The Central London tube was able to keep a steady half-hour service going and to move those services maintained by volunteer labor. Old fashioned busses are appearing again in London streets for the first time in a generation

Dizzy Spells Come from Constitution

Your doctor will tell you that nine times out of ten diminess and headaches mean that your body is being poisoned by con-stipation. Nuclo prevents these by removing the cause.

Constitution is dangerous for anybody. Nujolissafe for every-body. It does not affect the stomach, and is not absorbed by the body. Medical authorities approve Nujol because it is so safe, so gentle and so natural in its action.

in its action.

Najol makes up for a defi-ciency of natural inbricant in the intestines. It softens the wage matter and thus permits therough and regular howe movements without griping.

Nujol can be taken for any length of time mithout ill effects. Unlike laxatives, it does not form a habit, and can be discontinued at any time.

LESS CRIME

The report of the British home office on crime in England and Wales It is in the service of a man who in the year 1924 is a most reasour knows a lot more about doing things ent. The number of persons tried for indictable offenses was 57,374; in 1913 the year before the war, the number was 63,269. According to pre-war statistics qu crime was increasing steadily before the war; but it has declined consider-ably since its termination. Crimes of violence against the person have decreased in number, and drunken-ness shows a decline of sixty per cent. in the number of prosecutions. Cases of murder have re mained almost stationary through-out a period of fifty years, being out a period or fifty years, boing about 150 per annum, or three a week. This actually constitutes a considerable 'decrease, however, for the population has increased during that time from 24,000,000 to 39,00-0.000. As a contrast to this it may 0,000. As a contrast to this it may be stated that four years ago in the United States the number of homi-cides in the then population of 93, 000, 000 was nearly eight thousand. So great has been the improvement that twenty-five British jails have been diverted to other purposes, and there are at present twenty-one ampty, some of which are being used empty, some of which are being use as temporary dwellings for those win are unable to find house accommed tion. These happy results have been attained, not through a system of severity, but rather by the more mer ciful and humane treatment of of-fenders . It has been found that

nnouncing SALADA Orange Pekoe Blend

OW you can try "SALADA" 'Orange Pekoe'. The unrivalled position that "SALADA" holds in the confidence of the public, assures the critical tea-drinker that "SALADA" 'Orange Pekoe' will be all and more than we claim for it. Our tea experts have produced it. Impartial judges say that it is unequalled in quality or flavour by any other tea anywhere in Canada.

"SALADA" 'Orange Pekoe' is grown high in the mountains, in certain special districts in Ceylon and India. The flavour is smooth, delicious, captivating—the blend is so perfectly balanced.

"SALADA" 'Orange Pekoe' sells for 43c. per \(\frac{1}{2} \) lb. You should try it. It is the most delicious and economical tea that can be used.

AT LOCTING OF FOOD SHOPS

London, May 8.—Scores of truck-loads of police were roll
ling into the congested districts of London today as apprecaution against possible attempts to loot the food shops tonight, when the pinch of the strike will be felt keenly by workers who receive no pay envelopes. Tonight there will be only strike pay, equivalent to a few dollars, which means no Saturday night beer and no shopping for a joint of roast beef and a supply of potatoes for Sunday menu.

Toronto, May 8.—Gordon Simpson was returned to Portsmouth Penitentiary today to complete his ten-year term for escape and previous convictions, following the failure of a jury to agree on the latest charge of bank robbery preferred against him. He will return in the fall for a new trial. With Simpson four other prisoners were re moved to Portsmouth. They were Fred Plewes, Frde Ruston, Louis Gentle and John Rogers.

LONDON AND LITERATURE

in these days comparatively few dis-tinguished witters live and work in London. Notable exceptions are Sir James Barrie and Mr. George Bernard Shaw, we live in the Adelphi; Mr. George Moore, who lives at Ebury Street, and Mr. Galaworthy, who lives at Hampstead. Mr., Wells dose most of his work at Great Esstan; Mr. Bennett works mostly out of London; Beanett works mostly out of London; Miss May Sinciari lives in London for a great part of the year, but most of her work. Is done at Stow-son-the. Wold; Mr. Pett Ridge lives at Chisle-hurst, though he comes to London almost every day. Mr. Eden Phillipotts lives at Beaconsided; Mr. Israel Langwill lives is Sassex, and so on. Mr. Hardy has, of course, lived for years at Derchester, and George Mer-edith Bired for many years at Box

t satisfies the growing desire to make the follar go farther—to make it buy more comfort and enjoyment.

The plain fact is that the Chrysler "70" af-fords all of the roadability, speed, and ease of riding of bulky, cumbersome cars; and to those adds its own inherent advantages.

It is far less costly to buy and to keep. It gives twice the gasoline and oil mileage of many cars which it equals and surpasses in speed.

It goes deep into materials and m facturing. No car is built of incr mater no car is built to finer standards.

The result is that Chrysler "70" stands up without constant mechanical attention in a way that arouses the highest praise of men and women who are used to the very costliest cara.

Let us show you the Chrysler "70". Ride in it, drive it. That is the only way you can fully appreciate its remarkable qualities.

-and Sales still mounting

71,189 retail deliveries were made by Dodge Brothers Dealers in the United States and Canada between January second and April third. This represents a gain of 37 per cent over the same period last year and 69 per cent over the first quarter of 1924! Third largest in the world! And sales CONTINU-ING to mount week after week to new record break

In fact, during the week ending April 24th ret sales reached the remarkable total of 9,566—t greatest single week in Dodge Brothers history!

These figures are all the more significant when you realize that the gain of the industry as a whole over last year is only 12 per cent. There could be no more convincing evidence that today aproduct is regarded as better than ever before and that the present prices make it the most im-pressive value Dodge Brothers (Canada) Limited have ever offered.

Slumber King

Built in Canada. by Canadians, to give all Canada sleep comfort

An outstanding manufacturing achievement of our Dominion is the *Slumber King* bed spring. You cannot find anywhere, abroad or in the States, a better steel fabric spring. In no other is greater value offered for your money.

Judge for yourself at any furniture store. See how the 26 flexible steel strips are allowed by their ties of four continuous coils to conform to
your body without sagging. Notice how doubly
broad side strips and cables keep the edges even.

Rub your hand over its surface. There are no sharp points to tear the bedclothes. Observe how easy it is to keep clean. Mark its strength in every detail.

Not only because it is Canada-made, but also because you can buy no finer comfort for so little, you want and need a Slumber King.

Complete your comfore with an OSTERMOOR

A fitting companion to the Slumber King, Unequalled by any other white cotton felt mattress in Canada for more than 30 years. One quality, the best; one maker, Simmons Limited; one price, the lowest at which so fine a mat- 25 tress can be sold... 25 Beware of imitations. Look for the Ostermoor label.

SILKS

For Summer Dresses

You'll find our assortment of colors in silk particularly fascinating. After you've selected the two of three shades that are specially becoming to you, you'll probably see lots of other pretty tints that you didn't even know existed. The plain colors never seemed so soft and beauiful, and the printed silks are worth going miles to see. Coin dots and modernistic patterns make the silk crepes interesting while cool georgettes patterned in big pale flowers will add summer leveliness to many a wardrobe.

How do you know its good?

WHEN you buy any product, you expect to get full value for your money.

But how do you know you're getting it? No wise person wants to take a chance every time he buys something new-or something he has not tested personally,

Here is a test you can rely upon for safe quality and full value: "Do you see the product you want advertised consistently and persistently?"

If you do, it is good value. No sane merchant or manufacturer would continue to spend good money advertising poor merchandise. Every advertised product has been tested for you-by hundreds of other people. They have bought and approved it-else it could not continue to be advertised.

RUTH HITS TWO HOMERS IN GAME SCORED 7 RUNS

Torontos Were Goose-Egged - Triple Play by Skeeters .

Toroito played poorly and Jersey City won, the fourth game of the arries 4-9. Canatrelli beld, the Leafs to six leathered hits, while he was given hell-liant support, his team-matts surking a friple play and three, double killings. The triple olay came in the fourth sith Carlyle; at bet and Gilhooley end Mullen on bese. Carlyle lined to Corgas who threw to account to rest Gil-hooley leading off that bag. Urbbanski relayed to Bissonnette and Mullen was on a close decision.

DITTIES BIG DAY

At New York.—The pale and interest, ing convalencest of 1925, Mr. Ruth, his two honours and a double at the Stad-ation of the Stade of the wild put have below on the Held so far at the Vasices beguing the Judician was

concerned.

It was a "revitable field day for the plump slugger." The Ynaks wen by 4 runs, 13 to 9—their third straight vice-to-y-and Rule second these four himself, not to mention piers others that himself, not to pension piers others that be bated seroes the plate. To be responsible for seven runs out of a passable thirteen was industrial, and to hit two bomers in one day was another thin.

He has now reached the tenth mises since in the rise to beat his our meet of 1871, and on the surface of thirse he is no posseding rises. He is tenth house free years gave haining up on May 12. By this reduced he is not on the head of Mad, but the fig. 2 the eliment is that his tenth house of 1921 was hit during the tenth house of 1921 was hit during the tenth house of 1921 was hit during the tenth was the tenth of the tenth of the Mad, but the fig. 2 the eliment is that his tenth house of 1921 was hit during the tenth-wischt engagement for too Yanks.

Concrete Roads are Economy Roads

Two men are primarily interested in permanent roads — the taxpayer who pays for them and the motorist who uses them. Often, the two are the same person who therefore doubly benefits. Concrete roads are permanent. They will not roll or rut. Heat does not affect them; oil drippings cannot harm them. The heaviest traffic cannot wear them out. With them, upleep costs are practically nil. They save 'the taxpayer's money.

Concrete roads are safe and afford an ideal driving surface. They materially reduce gasoline, tire and repair bills — to the decided advantage of the motorist.

Concrete roads reduce haulage costs and attract tourists and industries — benefits that the whole community shares in.

Therefore, let us have more permanent, money-

saving concrete roads.

The counter-attack comes when you have driven your car 500 miles. Then the lunps of Friction will begin to get in their deadly work. First one part of the car, then another, will show signs of their presence. Just remember that every 500 miles you need Alemite Lubricant on your Ford.

Your Ford is as good as the care you give it. Treat it right and your up-keep costs are "nothing"—neglect it—and, like any other car or machine, it pays you tack in repair bills. What it costs to run a Ford depends on you. Eighty percent, of repairs come from a single cause—poor lubrication.

With the Alemite-Zerk 17 patented fittings you can replace every grease and oil cup. You simply press the Alemite-Zerk compressor against each fitting, and—instantly fresh lubricant shoots entirely through the bearing, forcing out the old, caked

Talk to your Service Station man about it. He dislikes mea-ing with greate cupe just as much as you do—they take too much of his time. If your Service Station man does not carry the Alemite-Zerk fitting, sue the coupon in the corner and we will tell you where you can get them.

ARBON makes your engine knock and miss; causes excessive wear on piston rings, cylinder walls, wrist pins and bearings; reduces the power and efficiency of your motor; and shortens its life.

You are gambling with carbon trouble every time you fill your crank case with ordinary motor oil, because the amount of carbon deposited by any oil is dependent upon the amount of carbon it contains.

Marvelube, the new process Imperial Motor Off, successfully combain carbon. It contains only the merest trace of carbon.

Marvelube is the result of four years of diligent research and experiment by Imperial Oil Limited. It is refined from a special grade of Peruvian Crude Oil—lowest in carbon and richest in lubricating

value. The Marvelube Process by which it is made, is a new and revolutionary step forward in refining science, because it practically eliminates carbon in the finished oil.

Imperial Oil Limited controls Peruvian Crude Oil— and is sole owner of the Marvelube Process. Hence this marvelous Iubricant cannot be duplicated

Play safe with your motor. Fill with Marvelube. You will get big returns in motoring satisfaction at once and save money on repairs and re-sale value in the future.

Marvelube is made in six grades—including Mar-velube "F" for Ford cars, and is sold at Imperial Oil stations and by good dealers everywhere. The standard retail price of Marvelube from bulk is 35c, per quart.

How do you know its good?

WHEN you buy any product, you expect to get full value for your money.

But how do you know you're getting it? No wise person wants to take a chance every time he buys something new-or something he has not tested personally,

Here is a test you can rely upon for safe quality and full value: "Do you see the product you want advertised consistently and persistently?"

If you do, it is good value. No sane merchant or manufacturer would continue to spend good money advertising poor merchandise. Every advertised product has been tested for you-by hundreds of other people. They have bought and approved it-else it could not continue to be advertised.

Read the advertisements to know what is best to buy and where to get it.

Quality Has No Substitute

EPENDABILITY and long life are essential elements of motor car satisfaction.

Whatever other characteristics a car may have, whatever refinements may be added, all must have their foundation upon these basic qualities.

The basic quality of the Ford has been demonstrated in the hands of over twelve million owners in all parts of the world. These owners have chosen Ford products because they know that there is no substitute for what Ford offers

This policy of uncompromising quality has made the Ford the ideal form of practical transportation.

BOY OF 10 HANGS HIMSELF.

COULD NOT FACE REBUKE
Calgary, May 21,—"You'll be sorry if you tell," warned ten-year-old Johnnie Cochrane, of Fenn, Alberta, when his small brother said he would complain at home about The fight the two had in the barn. His brother did not heed him but went into the house and when he came out heed him but went into the house and when he came out half an hour later Johnnie was hanging by his neek from a rafter. The high strung and nervous boy apparently could not face the prospect of rebuke from his family and ended his life. The boy was heard screaming loudly for about five minutes by an attendant at a grain cleva-tor about a block away, but the man thought that per-haps he was Being punished at home and therefore paid no more attention to it.

PRINCE SOON TO MOVE TO MARLBOROUGH HOUSE

London May 22 -Society folk London, May 33.—Society folk are anticipating the time when the Prince of Wales will leave his tachelor quarters at York Heuse and take over Marlborough House in which alterations are nearing

in which alterations are nearing completion.

It is said the Prince intends to esterata there on a fairly large case, but not quite on larishly as the granditute. King Edward, did. There will, however, he one or two "strawbary creation" on the famous lawn such as nocley folk were familiar with in King Edward day. In the absence of a "connort" poole are wordering whom the Prince will sak to take the part of "backers" on such case.

upremacy Fine Steel

In the percentage of Costly Chrome Vanadium Steel used, Dodge Brothers Motor Car outranks any other automo-bile in the World, regardless of cost.

It is everywhere conceded that Chrome Vanadium Steel is the toughest and most enduring metal ever created for use in the vital parts of a motor car. It may not be so well known, however, that Dodge Brothers Motor Car ranks first in the world in the use of this costly and fatigue-proof material. Dodge Brothers power assembly is almost entirely Chrome Vanadium—motor, connecting role, crabkehaft, transmission, universal joint, drive shaft, formatial and rear axie.

Even the front axle is Chrome Vanadium - the entire steering unit-and every leaf of the springs,

In fact, wherever any manufacturer uses alloy steels, Dodge Brothers use costly Chrome Vanadium. And in numerous instances Dodge Brothers employ it where plain carbon steel, even in the costliest cars, is commonly thought sufficient.

This has been true from the day Dodge Brothers built their first motor car.

This explains why the words Long Life, Safety and Dopondability are habitually associated with the name Dodge Brothers wherever motor cars are serving mankind.

Lift the mattress off any Slumber King spring and lie down on it. You will be surprised at its easy adjustment to every body curve. You will be amazed at the comfort of its steel fabric.

No one, of course, would sleep directly on a bed spring. But the test will show you how and why Slumber King is the finest steel fabric spring made, yielding a lifetime of sleep luxury. At either end, stout yet sensitive spiral springs suspend its 26 ribbon strips of steel. Four rows of smaller coils cross-tie them. Double-width border strips and cables prevent sagging edges. No matter where you lie on a Slumber King, you feel secure, easy, supremely comfortable. Nerves and muscles relax. Sleep comes and stays. See the Slumber King at your favorite store. Study it, compare it, and you will buy it.

CANADA AND THE OUTLOOK

Follows one of the best Editorial articles we have seen in some time. It happens to be the monthly state-ment of the Royal Bank of Canada-Economics expert of the Royal Bank Mr. Van Buskirk has access to the highest sources of information; has highest sources of information; has intimate contact with these sources and has therefore the real situation within his grasp. This article con-tains statements calculated to inspire Canadians to carry on despite that has caused a heavy loss of popu-lation in Canada and has dealt a blow at an important Canadian industry a blow it now tries to soften by be lated tariff compromises. Canadians have faith in their country. They know it is greater than any single party or group of parties.

Statistics showing that our foreign trade for the fiscal year ending March 31st, 1926, had a value of and one quarter billion dollars and balance sheets showing that the earnings of Canadian railways have tangible evidence of the substantial improvement which has been taking place in business conditions. In March the volume of building abov-ed an increase of forty-eight per cent, accounted for chiefly by rise of one hundred and eighty per cent. in the value of business con-

WHY IS IT-that the Ford is the only Car that can be out lifting the hood of the Engine?

The Ford is so well known—its good performances so universally accepted that we sell Car after Car, with no questions asked, except Price and our Special Payment Plan-

Let'us demonstrate a Ford Car to you, and tell you about the aunerior mechanical features, such as the Model T Motor, the planetary Transmission, the Oiling System, the Three Point Suspension Dual Ignition System, Thermo Syphon Cooling System, and All Steel Body Construction.

These are things that you should know about before deciding to buy any other Car.

Happy Ending to What Was Supposed to be War Tragedy

New York, May 27.—Charles F. Kil-leleo, able scaman and War Veteran, dashed off the steamobip Leviathan re-terday with but one thought in his mind— to see his mother, who for eleven years had believed that his bones were buried some where in India.

In 1915, Killelen, then sixteen years old, left his home in Leominster, Mass, and went to France to join the British flying service. His mother Mrs. Mary J. Killelen, mouroed for him and wisted for some word from him. But none

Many times Mrs. Killeles wrote to ber son's foreign address. She got so answer. Then one day a letter came from a hospital nurse in India, who said it was believed that Charles had died of an illness contracted while he was on shore leave from a British ship. MOTHER'S LETTERS HELD BY

WHY IS IT-that the Ford is the only Car that can be sold without lifting the hood of the Engine?

The Ford is so well known—its good performances so universally accepted that we sell Car after Car, with no questions asked, except Price and our Special Payment Plan

Let us demonstrate a Ford Car to you, and tell you about the superior mechanical features, such as the Model T Motor, the planetary Transmission, the Oiling System, the Three Point Suspension Dual Ignition System, Thermo Syphon Cooling System, and All Steel Body Construction.

These are things that you should know about before deciding to buy any other Car.

BELIEVED FAKE IN McPHERSON CASE

Los Angeles, Cal., May 29.—Possibility that Kenneth G.

Ormiston, former radio operator at the Angelus Temple, would be sought again for questioning in connection with the disappearance of Aimee Semple McPherson, Wood-stock, Ont., evangelist, loomed today, following an assertion last night by Mrs. Sylvia Oberman that she could identify the man whom she saw talking to Mrs. McPherson shortly before the pastor vanished at Ocean Park of May 18. Mrs. Kennedy yesterday gave the police a let ter she received several days ago demanding \$59,000 ransom for the evangelist's safe return. The police believe the letter was written by a fanatic.

NEARLY KILLED BY ELEPHANT

London, May 29 .- The Maharpah of Jodhpur, British India, has had a narrow escape from being killed by an infuriated elephant. He was returning from a shooting infuriated elephant. He was returning from a shooting expedition in Nijigire Hills at the time, says the respatch to the Daily Express from Allahabad. The hunting surfy was passing through a jungle when an elephant suddenly.appeared and charged. The Maharajah read but the elephant continued to charge and be was soon beneath the animal. Members of the Maharajah's staff ranked to his aid and billed the elephant and rescued the ruler. The Maharajah was badly shaken up and bruise

throughout the Empire

FROM Great Britain, Australia, South Africa, New Zealand—from everywhere in our own Canada—McClary's are receiving congratulations on the speed and efficiency of their new wonder, element—Speediron.

element—Specificon.

This mass of fattering testimony reveals two big facts.

First, that the cooking speed of McClary's Specificon is greater than that of any other protected element. Seems present than that of any other protected element. Seems prought, electric cooking to practical perfection.

You have only to see the Specificon demonstrated to realize how waitly superior it is to all others. Crease, water, you have only to be completed to the seems of
Saves Time and Money Speediron operates on contact heat. This eliminates waste. Intense, concentrated heat goes right into the cooking utensil—not out at the sides, as with open elements—which means, better, faster cooking and lower hydro bills.

McClary's Electric Ranges are the only ranges equipped with the Speed-iron Element. When you see the Speediron you won't be satisfied until you have a McClary's Electric Range in your kitchen. See your electric gange dealer about it today.

Scores a Genuine Triumph

The enthusiastic welcome given the G-BOY, Graham Brothers new one-ton truck, has established this fact:

It is recognized at once as a real—a major—contribution to commercial haulage.

Revolutionary improvement in balance effected by a new system of weight discreted by a new system of weight discrete and the system of the ever dependable and slways economical Dodge Brothers engine—all these important factors enter into the G-BOY'S marked success.

And then the price! So low that only Graham Brothers, the largest exclusive truck makers, with huge buying and build-ing capacity, could possibly achieve it.

GREAT CHANGES Propaganda Against Militia Is Blow at British Empire Garrison Troops Hear Sermon TO THE POLICE

Relieville Garrison troops, units or the Canadian Non-Personeed Millis, who marched to S. T. Thomas' Church on Sunday, heard one of the most stirring addresses from the Chaplain of the Argyll Light Infantry and Rector of S. Thomas' on John of the Hon. Mr. Nickle Major the Rev. George Ross Beamish, V.D., that it has been Attorney General of Ontario, the good fortune of similar bodies of officers and most to bear the reliese today of Peter Chapter of the
in more than a generation.

The Venerable Archdeacon Beamish attacked boldly and incisively those people who are lending their support to a pol-icy that would curtail further the Militia of Canada; a policy "It will be a sorry day for Canada," he declared in ring-

ing tones, "should the propaganda against the training of school cadets and the Militia prevail. It would be fatal in its consequences. It is nothing short of propaganda aimed at the undermining of our Empire status. We would thus sell our inheritance in the British Empire for a mess of potage—a sick by sentimentality against militarism for fear of training men from the penitentiary on ticket in discipline in the King's uniform. No one wants war, most of leave has been granted to of all those offcers and men who have been in a war.

"Boware of entering a quarrel," "he quoted, "
